EXPERIENCE

Web Developer, Prosperna - Philippines 2021

Developed websites using OctoberCMS to streamline content updates and management. Collaborated with a cross-functional team to develop and maintain websites for clients using this platform.

Frontend Developer, UPF - Philippines
2022 - 2023

Worked with a team to develop websites for clients using technologies such as PHP and WordPress. On this experience, I was able to enhance my skill and developer my communication skills with the team and the clients.

International Leadership Peace Training Website
Duration: 2 months (Web Project)

Utilizing modern frontend libraries and tools. Collaborated closely with the client to gather requirements and implement custom features. Problem-solved technical challenges independently, enhancing problem-solving skills. Website: https://www.iltp.org

Web Developer, Comfort Financial Solutions - 2023
March - August 2023

I played a pivotal role in creating dynamic and visually appealing websites for clients using WordPress as the primary platform and Themeco Cornerstone as the theme builder. Developed and maintained WordPress websites, adhering to best practices in coding and optimization to ensure optimal performance and user experience.
